WORLD DOMINION

Conclusion.

It is not from idealism that we have been led to affirm the possibility of this comprehension in which colonials and foreign missionaries can collaborate within the limits of the nation in the great work of human fraternity. Rather it is as a result of studying the history of a suzerain colonial nation that we have seen the significance of the long spiritual effort which has permitted French Protestantism to live, and France to be a country of religious liberty. The missionary can penetrate the history of this struggle, perceive its underlying meaning, and draw from it ideas helpful to the native dependent upon a European sovereignty. Circumstances may be different from those we have noticed in French history, but missionary discipline remains the same. As he penetrates the mentality of a country and sympathetically understands the people among whom he works, he is better able to make himself 'all things to all men' and to bring all things into captivity to the obedience of Christ.

Ukrainia

Several articles have appeared in *WORLD DOMINION* on Poland and the Polish Ukraine, and some one or another has invariably criticized the accuracy of some of the statements or views of the writers. We find it very difficult to get what would be universally admitted to be the true facts. We are still studying the situation, and will be glad to have further contributions on this important field.—EDITOR.

Jews in Germany

In the close of his report, the Secretary of the International Hebrew Christian Alliance shows that there is a great spiritual work going on amongst the Jews in Germany. It seems that the persecutions of these people have served to awaken in them a new religious interest and fervour, and as a result many of them have been led to genuine faith in Christ. This was apparent to the observer when he addressed big meetings of Hebrew Christians in Hamburg and in Berlin, where he made some of his investigations.
