

WORLD DOMINION

The World Dominion Movement advocates Informed Continuous Co-ordinated Evangelism to reach everyone at home and abroad. Its basis is belief in the Deity and Atoning Death of the Lord Jesus Christ, the World's Only Saviour, and in the Final Authority of Holy Scripture.

WORLD DOMINION

i.e., the 'sādhu,' and the Christ of dogma. He felt that the progress of Christianity in India would be accelerated by the writing and singing of lyrics about Christ as well as by the adoption of Hindu methods of devotion. Such ways are now indeed being tried in some places, but Dr. J. A. Hutton once indicated the method which is, after all, the one that needs to be emphasized, viz., the translation of the message of God into the one language which everyone can understand—the language of Christian behaviour. A suitable commentary to this is found in some remarks of the Hindu Editor previously quoted :—

'The world to-day has no use for a religion that confines its activities to the church or temple while permitting its members to banish God from ninety-five per cent of their daily lives. It is not enough if the Gospel of Buddha or Christ or Mohammed embodies the greatest truths—that is only the beginning. What is wanted is a practical application of these truths to the daily life of the people who profess them. Your Book may contain the noblest and the greatest words ever uttered, but how far have you lived up to it?'

It is the individual life that tells. When India sees the impress of Christ she recognizes it. The impression which Lord Halifax (when Lord Irwin) left on India was not of one who was primarily a Viceroy or a Conservative or a Churchman, but one who was a sincere and devoted Christian. That is only one instance among many. There is still need in India for extensive preaching, but there is even a greater need for intensive personality.

Significant Facts

At one of the Conferences held to consider the religious future of the depressed classes, speakers presented the claims of ten religious faiths. What were recently considered by proud Hindus to be the offscourings of society were waited upon, entertained and treated to free conveyance to the meetings. The Sikhs are putting a levy upon the wages of their members to convert the Untouchables and the Moslems are mobilizing one hundred thousand of their members, raising a million rupees and training a thousand Moslem evangelists for the same purpose.
