

# WORLD DOMINION

The World Dominion Movement advocates Informed Continuous Co-ordinated Evangelism to reach everyone at home and abroad. Its basis is belief in the Deity and Atoning Death of the Lord Jesus Christ, the World's Only Saviour, and in the Final Authority of Holy Scripture.

## THE CLOSED LAND OF NEPAL

spring which was a great inspiration and help to many. Twelve tribes of Israel, united in faith and purpose, were needed to bring down the walls of Jericho. Pray that we, too, united in this way, may soon see these walls collapse, that ' every man may go straight up before Him ' in the Name of the Lord.

Are all who have heard the call obedient ? If only one is refusing to hear, he or she is making the gap in the attacking forces. If all were obedient should we have to shut our ears to the call from Assam, and have to seek God's guidance as to how one worker, in failing health, can possibly work during this cold weather in two empty stations, two hundred miles apart ? For ten years the call for workers has gone forth. It sounds again to-day. Who will hear and obey ?

### Christian Conference in Japan

The National Christian Council convened an All-Japan Christian Conference in Tokyo at the end of October, the general theme being ' The Christian Church's Contribution to the Nation's Development in the Present National Emergency.' Under this main heading four sub-subjects were studied and discussed : (1) Japanese Christianity and the Nation's Life ; (2) Japanese Christianity and the Church's Life ; (3) Japanese Christianity and Evangelism ; (4) Japanese Christianity and International Relations.

The present national emergency has brought the Christian Church face to face with a new situation, presenting a mass of new problems. This situation and these problems compel the Church to re-study its policies and methods, especially in the fields of evangelism and co-operation.

The question of evangelism was one of the major concerns of the Conference. The present national emergency has not only brought a multitude of problems to the birth, but is presenting the Christian Church with unparalleled opportunities and challenging it to formulate a programme adequate for the hour and the need. There are indications that, in spite of the difficulties which the nation is facing, or possibly because of them, the time is ripening for aggressive co-operative evangelism on a nation-wide scale.
